

smart cleaner

THE INTELLIGENT CHOICE IN POOL CLEANERS

Smart Cleaner quickly and efficiently cleans up dirt, leaves and debris from your pool.

- Easy to install and operate
- Low maintenance
- Operates on minimal suction
- Integral float and weights

SUITABLE FOR
CONCRETE, PEBBLECRETE, FIBREGLASS AND TILED SURFACE POOLS.

SWIMART
POOL & SPA SERVICES

Smart Cleaner works together with your pool's filtration system. A hose connects the cleaner to your pool skimmer and the suction generated by the pool pump transforms Smart Cleaner into an underwater vacuum cleaner.

Smart Cleaner randomly moves around the whole pool, cleaning and depositing debris into the pool's skimmer basket.

Smart Cleaner is easily installed and is designed to provide years of low maintenance operation.

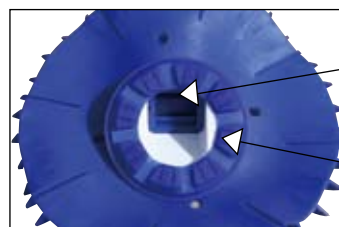

Swivel
Smart Cleaner swivels freely to increase the random coverage of your pool.

Deflector & bumper strip:
Smart Cleaner's unique deflector and bumper strip enables it to maneuver around steps, corners, and other obstacles.

Integral weights
Smart Cleaner has adjustable ballast weights for stability and enhanced performance.

Durable
Constructed from long lasting, corrosion and UV proof materials, Smart Cleaner is suitable for fresh and salt water pools.

Finned Disc
Smart Cleaner glides effortlessly along the bottom of your pool and up and down the pools walls.

Flapper Valve
Smart Cleaner relies on only one moving part. There are no bags or compartments to empty, wheels or gears to jam, or diaphragms to replace.

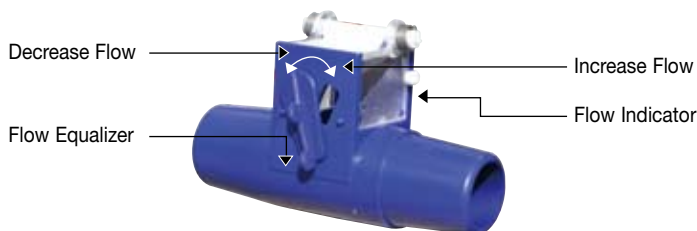

Large suction mouth
Smart Cleaner's large suction mouth enables it to tackle large pool debris and allows for easy maintenance.

Invisi Hose
Smart Cleaner's Invisi Hose allows you to view the debris being vacuumed up, while discreetly blending into the colour of your pool.

Smart Weir Valve

This compact flow control valve regulates water flow, ensuring optimum performance. This valve will clearly display the state of your filtration system. Should your filter require backwashing, this will be indicated by the position of the flow indicator.

Waterco Skimtrol Vacuum Plate (optional)

A Skimtrol Vacuum Plate will allow better skimming and suction control. The suction of Smart Cleaner can be adjusted via the rotation of the leaf cage.

Versatile

Smart Cleaner suits all pool types. Above-ground and in-ground concrete, pebble crete, fibreglass and tiled surface pools.

Simple installation

You can install Smart Cleaner in minutes. Since it's pre-assembled in the box, just connect the hose to the cleaner and then attach it to your skimmer box. No tools or special plumbing is required.

2 Years Limited Warranty

Smart Cleaner and the original hoses are covered against all manufacturing and material defects for 2 years.

Each Smart Cleaner includes:

- 10 metres of Invisi Hose
- Smart Weir Valve
- Weir adaptor set
- Bump Strip
- Deflector wheel
- Fin disk
- Clip-on Weight
- Hose Adapter
- Manual and warranty card
